Objective:

Aerospace engineering student specializing in Navigation Science and Space Technology, with hands-on experience in software automation, CRM systems, and platform development. Comfortable working across Python, JavaScript, and PostgreSQL, alongside a solid foundation in GNSS, GIS, embedded systems, and networking. Eager to apply both technical and engineering skills to real-world projects.

Education:

Bachelor of Navigation Science and Space Technology (Space Navigation Applied Science Program) [Sep 2021 – Jun 2026]
Beni-Suef University – June 2026
Cumulative GPA: 3.2 / 4

Work Experience:

Automation Engineer & Solution Architect at MLS9.com [Feb 2026 – Present]

- Built automation pipelines and marketing funnels supporting real estate lead generation and B2B workflows.
- Developed backend systems with Python and PostgreSQL for data management and CRM integration.
- Contributed to platform and website development using JavaScript.
- Worked remotely with the team on CRM architecture and technical documentation.

Real Estate Sales Representative (Cold Calling) [Jun 2025 – Jan 2026]

- Handled outbound cold calling for real estate buyers, sellers, and investors over an 8-month period.
- Managed a pipeline of qualified leads and built client communication and negotiation skills.

Trainings & Courses:

GIS & Navigation Training – Alexandria Port [Sep 2025 – Oct 2025]

Project Management Apprenticeship – Sprints [Jun 2025]

CCNA Routing & Switching (120+ hrs) – National Telecommunication Institute [Mar 2025 – May 2025]

Data Mining Techniques Training – National Authority for Remote Sensing [Sep 2023]

CanSat Assembly & Design Training – National Authority for Remote Sensing [Jul 2023 – Aug 2023]

CubeSat & CanSat Assembly & Design Training – SST Lab [Aug 2022 – Oct 2022]

Skills:

- **Programming Languages:** Python, JavaScript, C/C++, PostgreSQL, SQL, Assembly
- **Automation & CRM:** CRM Architecture, Pipeline Automation, Marketing Funnels, B2B Workflows, API Integration
- **Modeling & Simulation:** MATLAB/Simulink, STK, Proteus, LabView, Packet Tracer, Altium Designer
- **Networking & Systems:** CCNA Routing & Switching, Embedded Systems, Network Configuration
- **GIS & Navigation:** GNSS, GIS Tools, Remote Sensing, Satellite Navigation Systems
- **Tools:** Microsoft Office (Word, Excel, PowerPoint), Technical Documentation
- **Languages:** Arabic (Native), English (C1)
