Location: 5th Settlement, New Cairo/Egypt

SUMMARY

A driven and passionate Interior and Furniture Designer with professional experience across residential, administrative, commercial, and hospitality sectors.

Proven ability to add value through creative growth, hard work, and continuous learning.

Dedicated to delivering high-quality design solutions while enhancing technical skills within a dynamic professional environment.

WORK EXPERIENCE

➤ **Habrouk Consultants | May 2025 – Present | Interior Architect**

- Lead the conceptualization and spatial planning for high-end projects, ensuring all designs align with client needs and functional requirements.
- Develop detailed 3D visualizations and renderings to present immersive design concepts to stakeholders.
- Collaborate with cross-functional engineering teams to ensure interior architectural plans are structurally sound and meet local building codes in Egypt.
- Oversee material selection and FF&E (Furniture, Fixtures, and Equipment) specifications, prioritizing sustainability and ethical material sourcing.
- Manage the full FF&E lifecycle, including sourcing, specifying, and scheduling materials the projects.
- Develop comprehensive FF&E specification packages and mood boards that align with client budgets and aesthetic requirements.
- Lead the conceptualization and spatial planning for high-end projects, ensuring all designs reflect a balance of creative vision and functional utility.
- Collaborate with vendors and suppliers to ensure timely delivery and installation of furniture and materials, maintaining high standards for technical proficiency and detail orientation.

➤ **Amr Helmy Designs | July 2024 – April 2025 | Technical Office Engineer**

- Translated complex creative concepts into comprehensive technical shop drawings to facilitate precise manufacturing and installation.
- Managed the technical documentation process for the projects, reducing design-to-production errors through meticulous detail orientation.
- Coordinated between the design studio and the production factory to ensure furniture designs were executed according to exact technical specifications.
- Create professional technical presentations and project catalogs for high-profile clients.

➤ **Scope Integrated Marketing Solutions | July 2023 – May 2024 | Technical Office Engineer & 3D Designer**

- Designed high-impact exhibition booths and event environments, translating brand identities into physical 3D spaces.
- Developed comprehensive technical shop drawings to ensure precision in the fabrication and assembly of modular and custom event structures.
- Produced photorealistic 3D renderings to secure client approvals and provide clear spatial visualizations of booth layouts.
- Managed the technical documentation and material specifications required for booth construction, ensuring all designs met safety standards and budget constraints.

INTERNSHIP EXPERIENCE
